2010-2011 SCHEDULING

All grade levels will begin the scheduling process for next year. The students will not only pick out classes, but they will also work on their Personal Learning Plans which will help map out their future courses in order to get the educational background needed after high school. In addition, students will also look at resume building and career information. Please watch for this information!

SUMMER OPPORTUNITIES

Workshops, camps, and college-experiences are all available through a variety of programs offered through different universities and programs. Many of them specialize in certain academic areas; others are for gifted students. If you are interested in any of these programs, contact the guidance office for more information.
